About Me

Computer Engineering student with hands-on experience in AI/ML, backend development, and automation systems. Built real-world projects involving LLM workflows, FastAPI backend services, APIs, and intelligent automation. Currently gaining industry exposure through an AI/ML internship while strengthening expertise in AI-driven systems, backend engineering, and practical problem-solving. Seeking opportunities in AI, Machine Learning, or Backend Engineering.

Work Experience

AI/ML Intern, IPLAIRANI 03/04/2026 – Present
Pune

- Working on real-world AI/ML-based projects and practical problem-solving in an industry environment.
- Assisting in the development of AI-driven solutions, intelligent workflows, and automation systems.
- Applying Python, Machine Learning concepts, APIs, and backend workflows for implementation and experimentation.

Data Science Intern, Codesoft 01/09/2025 – 30/01/2026
Pune, Maharashtra

- Performed data cleaning, preprocessing, and EDA using Python
- Built and optimized ML models.
- Applied statistical methods & ML algorithms.
- Improved teamwork, problem-solving, and project management.

Education

Bachelor of Engineering in Computer Science, Indira College of Engineering Present
Pune

Higher Secondary Certificate, Janata Junior College Pune

Skills

Core skills • Python (NumPy, Pandas, Matplotlib, Scikit-learn), SQL, C++, R • Machine Learning, Data Preprocessing, EDA, Model Building • Generative AI (LLMs, Prompt Engineering), AI Workflows • FastAPI, REST APIs, Backend Development, API Integration	Web & Tools • HTML, CSS, JavaScript, React, Vite • Node.js, Django (Basic), Full-Stack Fundamentals •
Automation & Platforms * n8n, Supabase, Firebase, Railway * JSON, Webhooks, API Automation	Tools & Technologies • Git/GitHub, Jupyter Notebook, VS Code • MS Excel (Advanced Functions, Pivot Tables, Reporting)
Database & Automation • SQL, MySQL, PostgreSQL (Basic) • Supabase, Firebase • n8n, JSON, Webhooks, Railway	

Projects

Universal AI Workspace | AI Workflow Automation Platform 08/2025 – 01/2026
Github-<https://github.com/optimusprimeleader345/universal-ai-workspace>

- AI-powered task execution platform using LLM-based planner-executor architecture
- Built a system that converts natural language tasks into structured execution workflows for intelligent task management
- Implemented planner-executor architecture with explainability and execution logs
- Designed backend APIs using FastAPI with a modular and scalable service structure

Tech: Python, FastAPI, LLM APIs, React, REST APIs

Hirezy | AI-Powered Recruitment Platform 03/2025 – 06/2026
Github-<https://github.com/optimusprimeleader345/hirezy-platform>

- Full-stack platform with AI-assisted candidate matching and recruiter dashboards
- Developed role-based dashboards for students, recruiters, and administrators
- Implemented AI-assisted candidate matching and scoring logic for recruitment workflows
- Designed backend workflows for job posting, candidate ranking, and selection processes
- Built scalable API architecture and deployed a working demo

Tech: React, FastAPI, Backend APIs, AI Integration

Sentinel AI | Intelligent Monitoring & Automation System 04/2025 – 05/2025

- Demo, Github-<https://github.com/optimusprimeleader345/sentinel-ai>
- Backend automation system for log monitoring and intelligent alerting
- Built automation pipelines for log analysis and event detection
- Implemented rule-based and AI-assisted alert generation
- Designed structured workflows for monitoring and system response

Tech: Python, Backend Automation, APIs

Orion | Backend API Architecture System 05/2026 – Present

- Github-<https://github.com/optimusprimeleader345/orion-ai>
- Backend-focused system for API design and modular service structure
- Built REST APIs using FastAPI with scalable architecture

- Applied modular design principles and separation of concerns
- Focused on backend engineering best practices

Languages

- English
- Marathi
- Hindi

Achievements

- * Contributed to FastAPI documentation (StreamingResponse improvement)
- * Participated in Smart India Hackathon & Walmart Hackathon
- * Completed Cisco Cybersecurity Certification
- * Completed Google Data Analytics Certification
- * Currently working as AI/ML Intern at IPLAIRANI
